Sabse Pure. Sabse Healthy.

Industrial RO Water Purifier + Chiller

with Computer Controlled
LED Display System

Efficiently Unique

Our industrial coolers cum alkaline RO purifiers have advanced technology, patented design and incredible efficiency. With beautiful fully covered bodies and temperature regulation enjoy perfectly pure, healthy, tasty and chilled water this summer.

Recommended for

- Works for small & large scale usage
- All Industries
- Latest and highly advanced
- Purifies all kind of water
- Eliminates toughest of impurities

Design

- Strong, compact
- Beautiful design to show off
- Computerised LED display
- Fully covered body
- Heavy Duty Model

Storage and Installation

- Plug and play
- Fully automatic
- No installation hassles
- Economical to maintain
- Energy efficient- power saving
- Stainless steel storage tank

Blue Mount Care

- Focused R&D
- Hold Highest Certifications
- 1 year of free on-site support

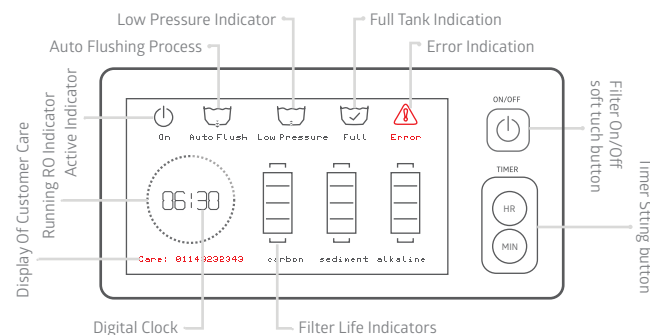

Blue Mount Industrial Water Purifier with Chiller

We believe that purified healthy water is a right for every human being, then why just limit water purifiers to households.

Blue Mount holds expertise in industrial range of water purifiers which are highly efficient and reliable, used across industries and application. Built on different technologies to suit everyone's needs, the purifiers are customizable and special attention is given to their performance, quality and even looks. Now you won't have to think twice to bring the purest healthiest and tastiest water for all.

Advanced Computer Controlled LED System

The High-tech LED display system is like a purifier robot. It has the ability to auto stop the purifier in case of any leakage or overflow and indicates about the error in real time. The computer controlled LED has a time based filter change indicator, hence you never have to worry about when to change the filters, it will inform you automatically.

- Handy on and off button to increase filter life and saves power.
- Indicates the non functioning and life of important filters.
- A clock to help people working in kitchen to multi-task and be on time.
- Inbuilt 30 sec. auto cleaning to increase the life of RO by flushing the membrane.
- It blinks on any error related to the non working of LPS, auto flush and filter malfunction.
- Customer to get in touch directly with company for definite services

Blue Mount Cool

Blue Mount Industrial Alkaline RO Technology with LED Digital Display System

The one-of-their-kind water coolers are built on the most advanced Alkaline RO purification technology with LED display for your best experience. The coolers purify water with Alkaline filter + RO + Carbon + Sediments+ pH removing all kinds of impurities like clay, chemicals and viruses while maintaining essential minerals and pH level of water and then cools it to a desired temperature. The fast cooling, easy dispensing online purifiers with LED display to monitor its working are known to serve all industries with perfectly cool and pure water.

Technology: Online Alkaline RO + Digital Display System with Chiller

Stages: Sediment, Activated Carbon, RO, Antioxidant Alkaline

Installation: Plug & Play design

Application: Suitable for Purification of Brackish/Tap/Municipal/ Bore-Well Water

Operation: Automatic
