Ultraviolet Water Purifiers

With Silver Impregnated
Carbon Technology

Ultraviolet- Significantly Advanced
4 stage water purifier that gives chemical-free, online purification for consistent and good quality of water which is crystal clear and pure to perfection.

Recommended for

- Purifies most types of impure water
 - All households

Design

- Beautiful to look at
- Hygienic tap-outlet
- Push fit components
- A size that fits all kitchens
 - Safe material

Storage and Installation

- External and Built-in storage tank model options
- Easy to install and maintain
 - Easy to connect

Blue Mount care

- Focused R&D
- Hold highest of Certifications
- 1 year of free On-site support

Ultraviolet Technology

Ultraviolet sterilization is useful for targeted elimination of microbes. It ensures that the water is 100% free from bacteria, viruses and other impurities and ideal for consumption.

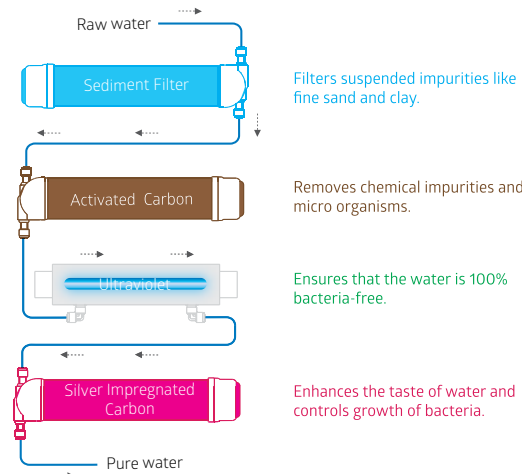

Blue Mount state-of-the-art online UV technology uses four-stage purification method. First is Sediment cartridge, which filters suspended impurities like fine sand and clay from the water. This water is then double purified by Activated Carbon cartridge and Silver Impregnated Carbon removing all chemical impurities like chlorine, as well as colour and odour from the water.

Shine+ purifier contain transparent storage tanks that are insect-proof and don't make water smell bad.

Silver Impregnated Carbon

Blue Mount introduces Silver Impregnated carbon filter with UV filtration as disinfectant, more effective in controlling growth of bacteria and other micro-organisms.

Due to its antimicrobial and antiseptic properties silver impregnated carbon is used as absorbent in domestic water purifier. It removes bacteria & viruses, enhances the taste of water & makes drinking water crystal clear.

Product Code: BM40

Blue Mount Shine

Technology: Online Ultra Violet with Silver Impregnated Technology
Stages: Sediment, Activated Carbon, Ultra Violet, Silver Impregnated Carbon

UV Lamp Power: 11 Watt

Storage: Easy to connect with external storage

Installation: Wall Mounted

Application: Suitable for purification of Tap/Municipal water

Operation: Fully Automatic

Product Dimension: 12 (H) x 10.5 (W) x 16.7 (L) inch.

Product Code: BM41

Blue Mount Shine+

Technology: Online Ultra Violet with Silver Impregnated Technology & Storage Tank
Stages: Sediment, Activated Carbon, Ultra Violet, Silver Impregnated Carbon

UV Lamp Power: 11 Watt

Storage: 9 Litres of purified water storage

Installation: Wall Mounted/Table Top

Application: Suitable for purification of Tap/Municipal water

Operation: Fully Automatic

Product Dimension: 16.7 (H) x 12.2 (W) x 11.8 (L) inch.

Sabse Pure. Sabse Healthy.

Working towards a better future.

Blue Mount is a new-age water purifier brand which originates from India. We have taken a challenge to provide 100% pure and healthy water in every household.

We bring a wide range of technologically advanced water purifier for not just pure but healthy water. These are designed as per present world water scenario and human needs and will suit one and all.
